

TCecure

CYBERSECURITY FOR SMALL BUSINESS

With decades of experience across sectors and industries, TCecure is made up of passionate **innovators** and cyber defense **professionals**. Our team is dedicated to enhancing clients' ability to **securely and effectively** meet and exceed their mission objectives through policies, training, crisis response, assessments, and more.

TRAINING & POLICY

Every angle of your business gets the support it needs to **prevent cyber attacks** through expert training and proven-effective policies.

EASY & CLEAR

Keep your eye on the ball with very limited software, hardware, or service disruptions as your organization **easily & quickly** becomes secure with **customized** solutions.

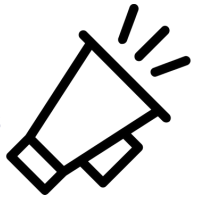

COMPLIANT

We partner with the Maryland MEP on their Maryland Defense Cybersecurity Program, providing funding and resources to become **DFARS 252.204-7012/NIST 800-17** compliant. In addition, our services and solutions help organizations prepare for **CMMC** standards and the **FISMA/RMF/NIST 800-53 ATO**.

INCIDENT RESPONSE

Have someone in your corner to resolve incidents quickly and **effectively** so they don't happen again. Speed up **response, recovery, and reconstitution**, so you can get back to work.

REMOTE / CLOUD

Cybersecurity solutions for **remote** and **cloud-based** operations so you can protect your company's every goal.

AFFORDABLE

With customized services at a price you can afford, we are always in shape to keep you protected 24/7/365.

TCecure was also the very first **Qualified Maryland Cybersecurity Seller**, meaning that qualified buyers receive a tax credit for doing work with us!
